

Finally One Digital ID For All Your Online Activities.

YourID is a collaboration of the online world that offers you a single digital identity for free. You can use it for all your daily online activities, whether for private use or business use.

With YourID, you can access any online place without usernames and passwords for the best user experience.

Your Privacy & Data 100% Protected.

YourID only uses technologies that are best-of-breed, and trusted by the online world, for any given scenario on a global basis. This ensures the most secure connection and best data protection, wherever you are.

To protect your privacy and data, YourID is managed by a transparent foundation that is supervised by consumer-representing organizations.

Free To Use.

The platforms and websites that collaborate in YourID share the cost of YourID.

Therefore, you can use YourID's app for free.

Receive Benefits Or Earn Money With YourID

In YourID's app, you can complete your profile through various information sources and include - for example - financial information, medical information or upload personal data from your smart watch.

Following this *optional* feature, by giving your consent you can *choose* to share this information with companies, and you receive benefits in return.
